The Festival du Film Merveilleux is an international film festival held in Paris, focusing on themes of magic and fantasy.

Ahead of its 13th edition in September 2023, the London public has been invited to discover a wonderful world of technology, a kingdom of digital fantasy and other digital tales in a unique selection of short films.

This selection around the theme of wonder, science fiction and technology invites us to reflect on the use and place of new technologies in our lives. The public were invited to vote for their favourite short film!

Following the screening, free VR workshops.
